## CFC IT Apprentice - Systems and Infrastructure

Motivated IT student with hands-on experience in cloud, cyber security, web development and automation. I am looking to continue my CFC apprenticeship in a company from July 2026 in the Lake Geneva region, in an environment where I can progress quickly and contribute to real projects.

Looking to continue my CFC apprenticeship in-company / work-study from July 2026 in the Lake Geneva region.

## PORTFOLIO - RECENT PROJECTS

Personal portfolio built with React, TypeScript, Bun, Rsbuild, UnoCSS and Cloudflare. It highlights my CV, certifications and recent active projects: this portfolio, TomBoard, links and Link-Catcher.
